

816 Audio™ Systems

Are your customers or members being heard? Engage through clear conversation

- Connect up to eight operators with as many as 16 consumers to increase speed and productivity
- User-friendly audio controls provide simple drive-up management
- The 816 Audio System eliminates any feedback and easily filters the human voice from any background noise to ensure your customers or members are being heard
- Enhance teller efficiency with the 816 Queuing Solution to show the order in which customers or members arrive to ensure all customers or members are serviced in a timely manner
- Privacy headsets give your customers or members peace of mind knowing their conversations will only be heard by your tellers.
- A variety of headset options are available to keep your tellers comfortable while working the drive-up

Enables up to 8 operators to be in audio communication with up to 16 customers
